DOUGLAS FIR PLYWOOD ASSOCIATION, TACOMA 2, WASHINGTON

ALWAYS SPECIFY DFPA QUALITY TRADEMARKED PLYWOOD

Douglas Fir Plywood

Real wood made by "unwinding" giant logs into thin sheets . . . then cross laminated to produce a rugged wood panel . . . that is practically puncture proof.

- Lightweight, rigid . . . easy to work with ordinary tools. Takes finish beautifully.

- Exterior and interior types in varying grades, sizes and thicknesses for every building plan and budget.

Interior Size	Grade	Price 4' x 8'
1/4" Good 1 side		12¢ sq. ft.
3/8" Good 1 side		16¢ sq. ft.
1/2" Good 1 side		21¢ sq. ft.
5/8" Good 1 side		24¢ sq. ft.
3/4" Good 1 side		28¢ sq. ft.

Also available, Good 2 sides

10% Discount on 30 Panels or More
— All one thickness or mixed. You may combine your order with plyscord sheathing listed below in order to make up a 30 piece order.

Exterior Size	Grade	Price 4' x 8'
1/4" Good 1 side		15¢ sq. ft.
3/8" Good 1 side		18¢ sq. ft.
1/2" Good 1 side		24¢ sq. ft.
5/8" Good 1 side		27¢ sq. ft.
3/4" Good 1 side		32¢ sq. ft.

Also available, Good 2 sides

Fir Plyscord

FOR LONGER, FASTER AND MORE ECONOMICAL CONSTRUCTION

ROOF SHEATHING

Fir plywood roof sheathing is a superior deck for all types of finish roofing. Holds nails well, adds strength and permanence.

(a) Apply with face grain perpendicular to supports for maximum strength and stiffness.
(Plywood Sheathing Continuous Over 2 or More Spans; Grain of Face Plys Across Supports)

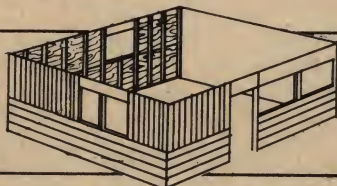

Recommended Thickness	Max. Spacing of Supports (C. to C.)			Nail Size and Type	Nail Spacing	
	20 PSF	30 PSF	40 PSF		Panel Edges	Inter-mediate
5/16"	20" (a)	20"	20"	6d Common	6"	12"
3/8"	24" (a)	24"	24"	6d Common	6"	12"
1/2" (b)	32" (a)	32"	30"	6d Common	6"	12"
5/8" (b)	42" (a)	42"	39"	8d Common	6"	12"
3/4" (b)	48" (a)	47"	42"	8d Common	6"	6"

The 3/4" values are applicable also to sanded panels of Douglas fir plywood.

(a) These spans shall not be exceeded for any load conditions.

(b) Provide blocking or other means of suitable edge support when span exceeds 28" for 1/2"; 32" for 5/8"; and 36" for 3/4".

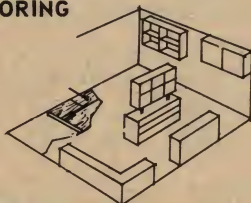

WALL SHEATHING

Walls sheathed with fir plywood are more than twice as strong and rigid as when conventionally sheathed with diagonal boards.

Recommended Thickness	Max. Spacing of Supports (C. to C.)	Nail Size and Type	Nail Spacing
5/16"	16" (a)	6d Common	6" Panel Edges, 12" Inter-mediate
3/8" - 1/2"	24"	6d Common	6" Panel Edges, 12" Inter-mediate
5/8"	24"	8d Common	6" Panel Edges, 12" Inter-mediate

SUBFLOORING

Fir plywood subflooring lends extra strength and rigidity to your home . . . means floors that won't shrink, swell, cup or squeak.

(Plywood Continuous Over 2 or More Spans; Grain of Face Plys Across Supports)

Recommended Thickness	Max. Spacing of Supports (C. to C.)	Nail Size and Type	Nail Spacing
1/2" (a)	16" (b)	6d Common (c)	6" Panel Edges, 10" Inter-mediate
5/8" (a)	20"	8d Common (c)	6" Panel Edges, 10" Inter-mediate
3/4" (a)	24"	8d Common (c)	6" Panel Edges, 10" Inter-mediate

If supports are not well seasoned, use ring-shank nails. The subflooring values in this table are applicable also to sanded panels of Douglas fir plywood.

(a) Provide blocking at panel edges for carpet, tile, linoleum or other nonstructural flooring. No blocking required for 25/32" strip-flooring.

(b) If strip flooring is perpendicular to supports 1/2" can be used on 24" span.

(c) If resilient flooring is to be applied without underlayment, set nails 1/16".

BRIGGS LUMBER COMPANY

Established 1883

**YOU CAN BUILD THIS NEW
HOME FOR AS LITTLE AS**

\$ 88^{20*}

**PER MONTH
NO DOWN PAYMENT**

The Greenbriar

**4 BEDROOMS, 1 AND ½ BATHS
FULL BASEMENT – HOUSE 1280 SQ. FT.**

ONE OF THE 20 FLOOR PLANS AND EXTERIORS AVAILABLE

Here's How:

Under our plan, a Briggs Shell Home will be erected on your lot; the purchaser is to make arrangements to have the necessary excavation completed at his expense.

INCLUDED with the Briggs Shell Home are:

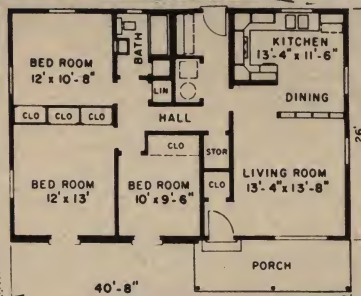

- Footing – materials AND labor
- Cellar Floor – materials AND labor
- Foundation – materials AND labor
- Shell erected – roof, siding, cornice, windows and doors and interior partitions installed.
- Chimney, complete – materials AND labor
- Plumbing – materials AND labor
- Heating – materials AND labor.
- Electrical – materials AND labor.

(NOTE—The plumbing, heating and electrical work in the Briggs Shell Home are COMPLETE, LABOR and MATERIALS are included. Some competitive shell homes do not include the complete job in all three categories. In addition, one year's free service is given on the oil burner.)

- **ALL MATERIALS NECESSARY TO COMPLETE THE HOME** are included in the price; including paint and interior finish materials. NOT labor.

NOT INCLUDED in the Briggs Shell Home:

- Building permits, sewer and water from the wall to the main.
- Interior painting and decorating labor.
- Exterior painting and decorating labor.
- Landscaping.
- Labor costs for interior finishing are NOT included in the price – materials, however, ARE included.

Very rarely will you find a house with four bedrooms which is designed so efficiently that the total area is just under 1,300 square feet. The fourth bedroom may be utilized as an office, den, guest or sewing room.

**THE BRIGGS SHELL HOME IS NOT A PRE-FAB –
IS NOT A PRE-CUT –**

Under the Briggs Shell Home Plan, no payments on principal and interest are necessary for six months; however, the purchaser agrees to complete the house within the six month period, before occupancy.

The Briggs Shell Home Plan builds your home with first quality materials, the same quality that people in our area have come to expect from the Briggs Lumber Company for three generations—the integrity of a company in business in this area for 84 years.

The Briggs Shell Homes will be built by local contractors, using the skills of local craftsmen.

***\$88.20 includes payment for principal and interest on a fifteen year amortization plan at your choice of a banking institution.**

This is a conventional mortgage plan. If you have GI credit, interest rate is lower and a 20-year mortgage can be arranged. Payments would then be \$72.23 monthly.

**COME IN TODAY AND DISCUSS IT WITH US – THERE IS NO OBLIGATION –
YOU MAY INSPECT OUR SELECTION OF FLOOR PLANS AND HOME DESIGNS**

**You CAN OWN THIS
4 BEDROOM 1½ BATH
HOME FOR AS LITTLE AS**

\$88²⁰

**per month with
NO DOWN PAYMENT**

Pictured at the left is the home of Mr. and Mrs. Michael Mongillo, at the corner of Van Woert Avenue and Boylston Street in Oneonta.

This home was constructed on the Briggs Shell Home Plan and Mr. Mongillo is in the process of completing the interior work on the house.

You, too may own this same home for \$88.20 per month, including principal and interest payments. It is NOT a pre-cut or a pre-fab home. It is built entirely of materials taken from our regular stock of quality building materials:

We have arranged to let people see this home while Mr. Mongillo is finishing the interior work so that you may see with your own eyes the kind of quality materials that go into each and every BRIGGS SHELL HOME!

**SPECIAL

HERE'S REAL WOOD PREFINISHED PANELING!

Nothing to do but put it up
and enjoy it.

Georgia-Pacific's factory finished paneling is made of real wood veneers from selected American hardwoods. Each panel is carefully treated with an invisible topcoat that gives permanent protection to the beautiful wood. This paneling stays like new indefinitely and needs only an occasional dusting. It is made in two grades: Family Proof (premium line) and Cottage (with natural growth characteristics).

FAMILY PROOF PANELING

Item	price/sq.ft.	Item	price/sq.ft.
American Black Walnut	78¢	Honeytone Oak	56¢
American Cherry ..	76¢	Flame Gum	48¢
Brown Elm	68½¢	Pecan	68½¢
Blond Oak	63¢	Adirondack Birch	60¢
		Greymist Ash	61¢

COTTAGE PANELING

Item	price/sq.ft.	Item	price/sq.ft.
Birch	49¢	American Elm	53½¢
Oak	50¢	Antique Elm	53½¢
Walnut	66¢		

All GP prefinished panelings are V-grooved for random plank effect.

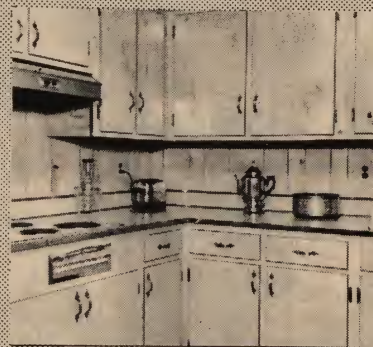

GEORGIA-PACIFIC

Dancraft
Plywood

Guaranteed for the
Life of your home

For all your building or remodeling requirements . . .

- Ideal for Interior Decoration...large variety of woods, grains and finishes to enhance the beauty of any room.
- Great "Built-In" Strength...stronger than steel on a weight-for-weight basis.
- Tops in Economy...equal to, or less expensive than any type of wall when overall cost and service are considered.
- Stays beautiful...mellows with age in most cases, scratches and other mars are easy to correct.
- Quick Installation...goes up easily over existing walls and ceilings or over framing in new constructions.
- Available either prefinished or unfinished in most domestic woods.

BRIGGS LUMBER COMPANY

Established 1883

STRUTWALL—Combines Beauty-Line and Flexivent Windows, in awning or casement position, into wall panels in four widths. Side struts 7'8 1/4" high to work with most ceiling heights. Works with Lu-Re-Co and other panel systems as well as in conventional construction for quick and easy installation. Used for single openings or in rows for larger window combinations. Same hardware, screens, double glazing or insulating glass as available for Beauty-Line. Grilles to change from contemporary to traditional optional.

CASEMENT—Picture shows popular bow window arrangement. Also comes in singles, doubles, and many other multiple sash groupings, and picture window combinations. Sash come in five heights and two widths with single lights, horizontal and divided lights. Sash swing out and can be washed from inside.

PRESSURE SEAL—A removable sash double hung window of highest quality that is exceptionally weathertight and easy to operate. Andersen also makes an attractive and efficient combination storm and screen unit for this window. Pressure Seal units come in five widths from 2'0" to 3'4" and five heights from 3'2" to 5'6".

Andersen Windowalls

COMPLETE WOOD WINDOW UNITS

Andersen Windows are designed to add to the beauty and comfort of today's homes. The natural beauty and character of wood complements your home and its furnishings. Wood is a natural insulator. Quality wood windows are as important to the well-insulated home as the insulation placed within the wall. Wood that is properly treated is permanent. Andersen Windows combine these properties and will help make your home a sound investment. Andersen Windows are made in a wide range of sizes and styles to fit almost any architectural style or requirement. Good windows are an investment that will pay dividends in reduced heating and air conditioning costs for the life of your home, and the best windows are Andersen.

OPTIONAL EQUIPMENT Includes aluminum screens of highest quality—removable storm panels or welded edge insulating glass—self-storing combination screen and storm unit for Pressure Seal Window—choice of two under-screen sash operators—removable grilles or lead tape for diamond or Colonial style divided lights.

Look for this label . . .
It is your assurance of quality.

Let us help with your window planning for remodeling or a new home.
Complete estimates furnished at no obligation.

GLIDING—Patio wall arrangement is shown with matching hinged door for maximum weathertightness and convenience. Gliding Window sash slide sideways on plastic tracks, can be easily removed from the inside. Two sash units come in six heights and three widths, have exterior screens and storm panels or optional insulating glass.

BASEMENT—A completely assembled, factory primed wood basement window unit. Has dual purpose, reversible hinges that permit sash to swing inward from either top or bottom. They can be reversed or removed easily without tools. Includes aluminum screen and optional storm panel. Units are 2'8" wide and 1'3", 1'7", and 1'11" high.

FLEXIVENT—A popular, weathertight all-purpose window—awning, hopper or casement type . . . in singles, stacks, ribbons and picture window combinations. Choice of bar or crank type under-screen sash operators or standard locks, removable storm panels or insulating glass . . . attractive aluminum screen.

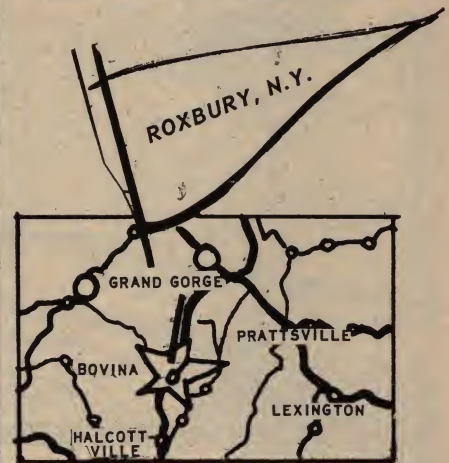

BEAUTY-LINE—A new idea in window beauty, economy and efficiency. Combines a fixed upper view sash with awning vent lower sash. Units are 2'10" and 3'10" wide. Heights are from 2'7" to 6'0". Single units, mullion units and multiple picture window combinations. Operating hardware, glazing and screens same as Flexivent.

BRIGGS YARD AT ROXBURY

Here at Roxbury, Manager Bill Poole (Center) shows Briggs staff members Howard Kelly (left) and Don Cook (right) a new stock of glazed sash and exterior doors.

An Exceptional Value DOUBLE HUNG Window Units

- Completely assembled and weather-stripped, glazed windows in preservative treated Ponderosa Pine frame
- Simple one-unit installation
- Engineered for smooth trouble-free operation... with 4 coil spring balances

INSULATING-BUILDING BOARD

FOR INTERIOR AND EXTERIOR USE

Ideal dry-wall construction

Exterior sheathing and finish

Homasote is a many-purpose building material that is ideal for modernization and repairs - as well as for new construction. Not to be confused with other insulating board, Homasote is a high-density wood fibre board that contains 33% to 56% more material. It offers superior insulation with outstanding resistance to moisture absorption and air filtration.

OTHER QUALITY HOMASOTE PRODUCTS INCLUDE

- Grooved Vertical Siding
- Board and Batten Exteriors
- Roof Decking
- Soffitsote
- Plank Walls
- Carpet Board & Underlayment
- Sub Flooring
- One-Man Panels
- Striated Panels for Interior and Exterior Finish

Water Resistant -- Fire Resistant
ASBESTOS CEMENT

Wallboard

- tough durable surface can be washed -- scrubbed -- scraped
- ideally suited for heavy-duty low cost exteriors and interiors of homes, farm buildings, garages, utility rooms, etc.
- easy to work with ordinary hand or power tools ... may be left natural or painted with concrete paints

POST & RAIL FENCE

- **BEAUTIFIES** ...enhances the natural beauty of home or farm
- **PROTECTS** ...ideal for boundary lines and around floral areas
- **ENCLOSES** ...10' sections adapt to all fencing designs

YOUR CHOICE OF
2, 3, OR 4 RAIL STYLES
(10' sections, complete with one post)

Made of selected hand-split chestnut butts, creosoted for longer life. All posts have non-split, heavy galvanized staple anchor installed to prevent checking.

Available in Chestnut or Locust with Chestnut Rails

10 Foot Long Section	Under 40 Sections	40 and Over Sections	Line Posts	Corner Posts
2 Rails and 1 Post	\$5.35	\$5.00	\$2.65	\$3.00

"FOREMOST WITH THE FINEST IN FENCES"

HANDYMAN NOTE:

INSTALL YOURSELF AND SAVE!

No expensive tools or mechanical know-how are necessary to install Beauticraft Post & Rail Fence. Just a crow bar, a shovel, and a post-hole digger (if you have one) will do the job. To install one section, simply:

1. Dig first hole...set post, tamping ground around same.
2. Lay rail on ground from first post toward location of second post. (Center of second post hole is 6" from end of rail)
3. Dig second post hole and insert rails in first and second posts—allow rail to come through flush to outside of second post. Set post, tamping ground.

IMPORTANT: Dig each post hole *only* when needed.

RAILS ARE 11' LONG — POSTS ARE SPACED APPROX. 10' ON CENTERS BECAUSE RAILS LAP EACH OTHER AT POST.

**For your present home . . .
a permanent replacement!**

Add new beauty to your home and stop those annoying costly repairs. Replace your old wood hatchway with a modern all-steel BILCO Door. Easy to install...permanent...neat-looking...weathertight. Built-in spring and automatic "hold open" catch afford effortless safe operation.

Call us for FREE "How To Install" Folder or we can suggest a competent workman.

Roll & Selveige ROOFING

You can't afford to gamble with inferior roofing materials!

- Bonded Performance
- Compare Its Superior Quality
- Low Cost . . . Easy To Apply

Low Cost, Hi-quality Smooth Surface Roll Roofing...

Heavy felt base, asphalt saturated and coated.

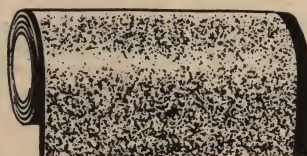

45 lb. roll	\$2.40
55 lb. roll	2.85
72 lb. roll	3.95

Selvedge Roll...

For roofs with at least 3/4" rise per ft . . . provides a double-thickness application

\$285 per roll
(50 sq. ft.)

Heavy Duty 90 lb. Mineral Surface Roll Roofing...

Heavy felt base saturated with asphalt...

\$395 (Lap Cement and nails included)

Galvanized Metal Roofing

Resists Rust... Lasts Longer

- Fire proof, protects against insects, rodents . . . can be left unpainted
- Apply yourself, no special tools . . . just a hammer and lead-headed nails.

Available in lengths 6', 7', 8', 10', and 12'; Sheets, 26" wide will cover a full 24" wide with lap.

26"x7' per sheet	\$1.89	26"x10' per sheet	\$2.70
26"x8' per sheet	2.16	26"x12' per sheet	3.24

ALL ACCESSORIES IN STOCK

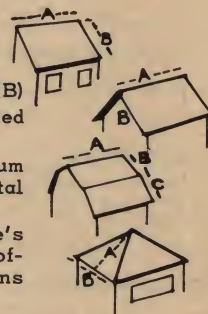

Ridge Roll, Gambrel Roof Joint, End Flashings, Nails . . . at low prices

HOW TO MEASURE A ROOF

Shed: Multiply roof length (A) by slope of roof (B)
Gable: Figure one pitch same as for shed roofs . . . then multiply by two.

Gambrel: Multiply roof length (A) by the sum of (B) and (C). Double the answer for total roof area.

Hip Roof: Multiply roof length (A) by eave's length (B) and divide by 2. This equals roofing area for each section. Total of sections equals roofing area.

Roof & Foundation Coatings

FOR EVERY JOB

LIQUID DAMP-PROOFING MATERIAL

Professional builders use this material when damp-proofing the exterior of concrete foundations under earth fillings. Required by many building codes, mortgage companies, etc. 5 gal. \$3.85

RESURFACER

Effectively seals cracks in top coatings of old roofs and revitalizes old asphalt. Best for use on roofs where there is no traffic. Remains plastic.

1 gal. \$.95
5 gal. \$3.50

ASPHALT FIBRE ROOF COATING

Fortified with asbestos fibre . . . for durability, this is a special purpose coating, not just a cheap black paint. gallon covers 75 to 100 sq. ft. 1 gal. 95¢ - 5 gal. \$3.50

ASPHALT PLASTIC ROOF COATING

Heavy grade for trowel application . . . to seal flashings around chimneys, skylights, dormers, etc.

10 lb. can \$1.00
50 lb. bucket \$3.75

COLD APPLICATION CEMENT

For use with selvedge roofing; requires no heat to apply, produces smooth, durable built-up roof.

1 gal. \$1.10
5 gal. \$4.95

Building Papers & Felt

Asphalt Saturated Felt

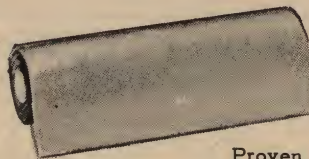

15 lb. . . for use under asphalt roofing or sidewall materials

per 432 sq. ft. roll **\$3.00**

30 lb. . . under asphalt roofing and as temporary roof covering

per 216 ft. roll **\$3.00**

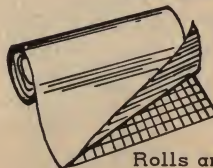

Rolls are 36" wide

Red Sheathing Paper

Proven an excellent wind barrier under floors and siding . . . also useful as temporary floor covering.

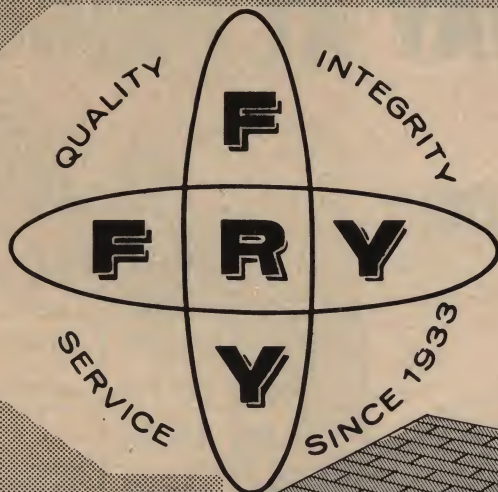

Rolls are 36" wide per 500 sq. ft. roll **\$2.00**

Reinforced Kraft Paper

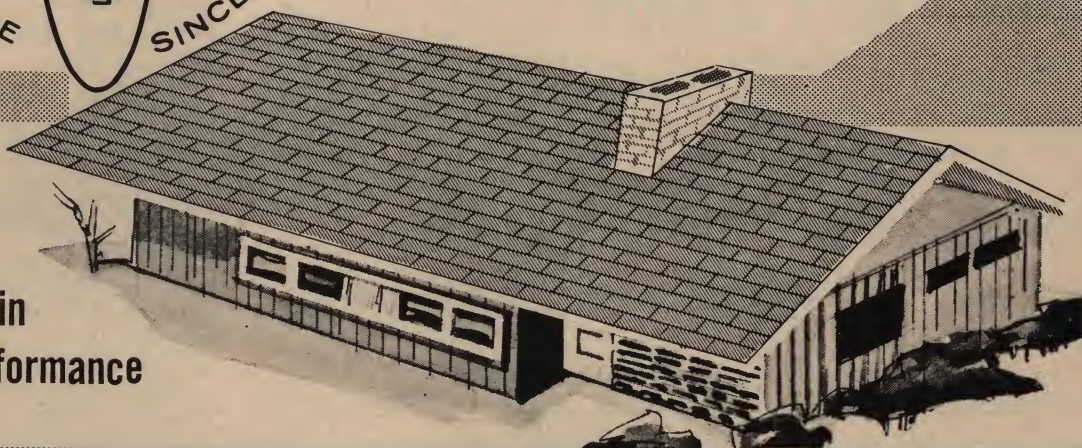

Popular all purpose building paper, reinforced to give the greatest strength and durability.

Rolls are 36" wide per 500 sq. ft. roll **\$9.75**

BRIGGS PRICE POLICY

Prices listed throughout this catalog are current prices, F.O.B. our yard, at press time. Due to market fluctuations, all prices are subject to change, both upward and downward. We welcome your call at any of our yards for latest market information and/or large quantity prices. All prices include delivery within our customary delivery limits on normal delivery schedule.

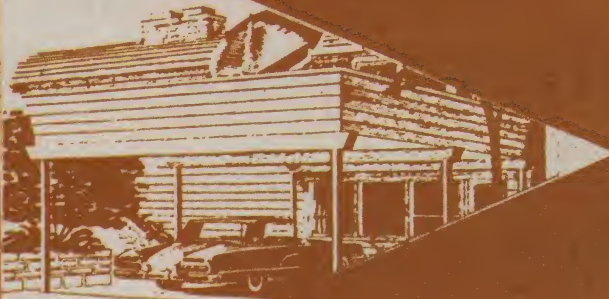

BRIGGS CREDIT POLICY

Charging materials at the time of purchase is a courtesy we are happy to extend to all our customers whose credit has been approved. This is done with the mutual understanding that the accounts will be paid in full upon the rendering of an end of the month invoice. We offer a monthly budget plan for home improvements, remodeling, and other large purchases. In addition, for those building homes, we can help arrange FHA, construction or conventional long term mortgage loans.
